LOUISVILLE, CO —Biotrol, makers of infection control products and preventive products for the dental industry, announces a new addition to their Evacuation System product line.

**NeutraVAC™**

**Dental Vacuum Line Cleaner**

**A powerful NEW formula that is non-foaming, super concentrated, and Neutral pH which means that NeutraVAC™ is compatible with amalgam separators.**

**NeutraVAC™** is a dual-action dental vacuum line cleaner which dissolves and removes organic and inorganic debris in evacuation systems; Neutral pH formula; mountain-fresh scent; super concentrated – dilutes 1/2oz to 1 quart (32 oz). Available in two sizes: a convenient 1 quart (32 oz) squeeze-up bottle *and* an economical 3 quart (96 oz) bottle with ½ oz calibrated pump. NeutraVAC™ is also available in a Starter Kit (1 quart bottle, atomizer & accessories). Available in U.S. and Canada September 20, 2004.

Biotrol has a full line of dental infection control, evacuation, and preventive products to accommodate your needs. Biotrol products are available only through authorized dealers.
