LOUISVILLE, CO —Biotrol, makers of infection control, evacuation, and preventive products for the dental industry, announces a new addition to their Evacuation System product line.

**Vacusol™ Ultra is now available in two sizes!**

**New - Vacusol™ Ultra 3 Quart Bottle  
and existing 1 Quart Bottle**

**Vacusol™ Ultra** is a dual-action dental vacuum line cleaner which dissolves and removes organic and inorganic debris in dental vacuum lines; contains quaternary ammonium, EDTA, and sodium meta silicate; fresh lemon scent; super concentrated – dilutes 1/2oz to 1 quart (32 oz) water. Available in two sizes: **new** economical 3 quart (96 oz) bottle with ½ oz calibrated pump and convenient 1 quart (32 oz) squeeze-up bottle. Vacusol™Ultra is also available in a Starter Kit (1 quart bottle, atomizer & accessories). Available in U.S. November 8, 2004, and in Canada November 29, 2004.

Biotrol has a full line of dental infection control, evacuation, and preventive products to accommodate your needs. Biotrol products are available only through authorized dealers.
